DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, and 5-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding **claims 1 and 18**, Chow 6,771,966 discloses a method and computer readable medium containing computer-executable instructions for performing the steps or method of modeling wireless interference among wireless links between a plurality of wireless nodes in a wireless network, the method or steps comprising: accepting connectivity information for the network; identifying wireless links between nodes of the network from the connectivity information and creating a graph from the connectivity information. Sengoku et al ("**Cellular Mobile Communication Systems and a Channel Assignment Using Neural Networks**") discloses assigning to the edge a weight equal to a fraction of a maximum permissible noise at a link corresponding to the second vertex contributed by activity on the link corresponding to the first vertex.

The instant invention discloses wherein each identified wireless link is represented as a vertex in the graph, an edge is created between a first vertex and a second vertex in the graph if the corresponding wireless links interfere with one another, and a direction is assigned to the edge. The above novel features are in combination with all other recited limitations are neither taught, suggested, nor made obvious by Chow, Sengoku et al or any other prior art of record. Claims 2, and 5-17 are allowable based on their being dependent on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
